

Fatih Berk Yozgatli

443-251-8636 | [Email](#) | [LinkedIn](#) | [Portfolio](#) | [GitHub](#)

Software Engineer and Data Science graduate with experience building full-stack applications, AI-powered tools, data systems, and analytics solutions using React, TypeScript, Python, SQL, and PostgreSQL.

EDUCATION

Southern Methodist University

Bachelor of Science in Computer Science

Bachelor of Science in Data Science

Dallas, TX

May 2026

SKILLS

Programming Languages: Python, TypeScript, JavaScript, Java, C++, SQL, Bash

Frameworks & Technologies: React, Node.js, Express, FastAPI, Django, Tailwind CSS, PostgreSQL, JWT Authentication

Data & AI: Pandas, NumPy, Scikit-learn, PyTorch, LLM Integration

Tools & Platforms: Git, Docker, Vite, Vercel, Railway, Azure, VS Code

Concepts: Data Structures & Algorithms, System Design, Full-Stack Development

EXPERIENCE

JR Dallas Wealth Management | *Junior Software and Data Associate*

Sept. 2025 – Present

- Designed and maintained Excel-based databases to manage client, account, and performance data across wealth management and retail divisions.
- Automated recurring data updates and validation scripts, improving data accuracy and reducing manual effort by 30%.
- Developed internal data analysis and visualization tools in Python and Excel, streamlining reporting for senior management.

Outlier AI | *AI Trainer*

May 2025 – Oct. 2025

- Designed and evaluated prompts for 50+ real-world web applications, comparing outputs from 3+ large language models (LLMs) for accuracy, coherence, and usability.
- Built and refined HTML, React, and JavaScript-based responses as ground truth data to train and improve model reasoning and alignment.
- Contributed to model performance optimization by identifying edge cases and generating corrective outputs, enhancing system reliability across diverse user intents.

Southern Methodist University | *Teaching Assistant*

Aug. 2023 – May 2024

- Conducted weekly lab sessions to clarify complex computer science concepts and provide assistance to students learning C++.
- Graded 40+ assignments weekly and provided written feedback for 60+ students to support understanding of algorithmic concepts.
- Supported students' transition from Java to C++ by reinforcing foundational programming principles from previous courses.

PROJECTS

WhatsMyGrade | *React, TypeScript, Node.js, PostgreSQL, OpenAI*

2026

- Developed a React/TypeScript frontend and Node.js/Express backend with JWT authentication, PostgreSQL data storage, and responsive mobile-first design.
- Implemented AI-powered features including syllabus parsing, natural-language grade entry, and a Grade Coach agent using OpenAI tool-calling workflows.
- Designed and unit-tested a custom grade-calculation engine supporting configurable grading scales, scenario analysis, and automated academic planning insights.

Property Data Integration Platform | *Billingsley Company*

Spring 2026

- Developed React-based interfaces for a real estate data platform integrating nightly Yardi exports into centralized operational dashboards.
- Built UI components that interact with FastAPI/Django APIs for authentication and dashboards.
- Collaborated in a 4-person engineering team to build a centralized property data integration platform serving operational reporting workflows.

LEADERSHIP

Dialogue Society | *Founder and President*

Aug. 2023 – May 2025

- Grew membership from 2 to 300+, making it one of SMU's largest student organizations.
- Secured \$10K in university funding and sponsorships.

Raindrop Dallas | *Mentor*

Aug. 2022 – Present

- Mentored local high-school students through weekly sessions focused on STEM skills, college readiness, and scholarship applications.
